

KUKKO Universal pulley extractor, Twin arms with narrow tow hooks type 20

Design: With sliding, always parallel and switchable puller legs made of chrome alloy tool steel and tempered, specially coated pressure spindle with especially good sliding characteristics.

Application: With switchable puller legs, suitable as external and recessed extractor.

Optimised geometry of traverse and sliders for particularly easy movement of the puller legs. At the same time, ensures a firm grip when tightening the screws.

Novel cross hook ensures maximum stability of the suspension in slider and hooks. Quick changes, because only one screw is necessary.
