

KUKKO Hydraulic extra press type 9

Design: Space-saving model Steel body has hydraulic mechanism with integrated, automatic reset mechanism.

Application: To protect against overload, the additional presses should only be used with extractors from size 3. Thus, the pressure is increased, whereby also very tight parts can be easily removed.

Its easy to turn back the nut splitter chisel from deformed or demolished nuts. The chisel does not get caught in the nut.

Description	Article
Hydraulic press for extractor size 1	W90A-69210011
Hydraulic press for extractor size 2	W90A-69210015
