

KUKKO Self-centring 2-arm puller type 43

Design: With heavy-duty, power-transmission, self-centring, narrow puller legs made of chrome alloy tool steel. Has automatic adjustment handle, freely rotating centring tip and tempered, specially coated pressure spindle with particularly good sliding properties. Handy, space-saving model.

Application: Particularly suitable for small electric motors, battery terminals, small ball bearings, etc. for car electrics, electrical workshops, compressed air system repairs and similar uses.

Automatic self-tensioning and centring of the puller legs.
