

WERA Electronics hex socket screwdriver type 6374

Design: With round, chromed blade made of high-alloy special steel as well as Black Point tip for more torque and fit. Has 2 component Kraftform Micro handle with integrated soft areas, roll-off protection and rotating cap for lightning quick twirl. With three-zone concept (precision, strength and rapid turning mode) for ergonomically better handling.

Application: Suitable for accurate, efficient and time-saving screwing. Ideal for delicate adjustments, e.g. useable in electronics area

With Hex-Plus geometry, therefore 20 % more static torque and protection of the hexagon screw.
