

FORMAT Cast iron drill clamp type 3807

Design: Body made from special cast iron. The interchangeable jaws are milled and ground, one of the jaws is smooth and the other comes with longitudinal and transverse prisms. Both jaws have support surfaces to clamp flat workpieces. With universal fixing option through oblong holes. With hexagon handle and cross bore.

Application: For clamping workpieces on drilling machines. Moreover, ideally suitable for fixing workpieces on measuring machines.

Clamping/chucking range mm	Weight	Article
