

FORMAT Surveyor tape measure with corrosion-resistant chromium-nickel steel tape type 4679

Design: Impact-resistant frame made of aluminium with an angled plastic handle and non-slip rubber studs, good handling through large crank arm mountable on both sides with 2x ball bearing crank mechanism and park position. Measuring begin ca. 10 cm after end fitting.

Tape made of unbreakable, stainless chromium nickel steel, matt surface, with continuous black mm graduation and red metre digits. The tape is baked in clear lacquer to protect it from wear.
