

SKF Oil injector series 226400

The 226400 E series is suitable for many applications using the SKF oil injection method. The injector is supplied with an oil reservoir in a compact carrying case. The injector can be mounted directly onto the work piece or connected to an adapter block to make a floor standing model, making it easy to connect pressure gauges and high pressure pipes. For applications where 400 MPa (58 000 psi) is required, the SKF 226400 E/400 is available.

Characteristics

Series: 226400
