

SKF Straight bushing Requiring maintenance Phosphor-Zinnbronze (CuSn10P)/Phosphor-Zinnbronze (CuSn10P) Series: PBM

- Solid bronze bushings can be lubricated with either oil or grease. The lubricant not only improves the sliding properties, but also reduces wear and prevents corrosion.

Advantages of solid bronze bushings include:

- insensitive to dirty environments
- resistant to shock loads and vibrations at low speed
- good resistance to corrosive contaminants
- equipped with grooves to retain lubricants

Applications include:

- construction machinery
- transport equipment
- pulp and papermaking machinery
- offshore equipment

Characteristics

Series: PBM

With collar: No

Maintenance: Requiring maintenance

Tread material: Phosphor-Zinnbronze [CuSn10P]
