

SKF Flanged bearing housing triangular Series: FNL

FNL flanged housings are well-proven machine parts that provide simple, reliable housing in applications without horizontal frames. FNL flanged housings are non-split housings that are produced in two designs depending on size. Smaller sizes up to and including size FNL 13 have a triangular flange, larger sizes have a square flange.

The housings are supplied with a cover either for shaft ends or for through shafts. The housings with a cover for shaft ends have the designation suffix A, the housings with a cover for through shafts have the designation suffix B.

FNL flanged housings are made of grey cast iron.

Characteristics

Series: FNL

Manufacturer ID	Outer dimension bearing mm	Length mm	Height mm	Shaft height mm	Centre distance of mounting holes mm	Housing material	Article
FNL 506 A	62	130	117	44	116	Grey cast iron	FNL506A-SKF
FNL 507 B	72	145	130	48.5	130	Grey cast iron	FNL507B-SKF
FNL 511 B	100	192	172.5	65	170	Grey cast iron	FNL511B-SKF
FNL 513 B	120	225	203	78	190	Grey cast iron	FNL513B-SKF
