

SKF Closed end cover with O-ring series ETS

For housings used at shaft ends, an end cover can be used to cover the one housing opening. ETS end covers are made of grey cast iron and are suitable for operating temperatures ranging from –50 to +200 °C.

They are inserted, together with an O-ring cord of silicone rubber, in the housing seal groove.

Characteristics

Series: ETS

Cover model: Closed

Manufacturer ID	Material	Article
