

DEB STOKO Skin protection for universal application Stokoderm Protect PURE

Universal protection against light to moderate water and non-water based contaminants. Highly effective film forming agent known to repel water based substances from the skin. Sits in the skin pores to prevent them from becoming blocked by oil-based substances. Non-tainting and HACCP assessed formula- suitable for use in food production and preparation areas. Perfume-free.

Characteristics

Series: Stokoderm® Protect PURE

Application

- Use before each work period, or re-apply after washing hands. Helps protect the skin against contact with various workplace contaminants and working environments such as wet or dry conditions. Facilitates subsequent hand washing allowing the mildest cleansers to be used. Also compatible for use underneath gloves to provide a second line of defence.

Operating Principle

- Apply one dose to back of hands first. Rub hands back to back and then palm to palm interlocking fingers and including around the finger nails. Ensure hands are clean before applying.
