

SKF Closed end Cover series ECW

To protect the bearing arrangement at the end of a shaft, and to avoid the possibility of an accident caused by an exposed shaft end.

End covers are made of polypropylene (PP), have good resistance to most chemicals and can withstand operating temperatures up to 100 °C. They are mounted by snapping them into the recess of the housing.

End covers are accessories and must be ordered separately.

Characteristics

Series: ECW

Cover model: Closed

Manufacturer ID	Shaft diameter mm	Material	Article
ECW 206	30	Polypropylene	ECW206-SKF
ECW 208	40	Polypropylene	ECW208-SKF
