

LOC-LINE High pressure turret nozzle serie CD 1/4" black type 9624

Design: Casing made of high-quality plastic granules. Suitable for use in narrow spaces. The nozzle can be rotated 360° for precise coolant distribution. The nozzle can be adjusted using an Allen key or the adjustment key included (Order No. 9600 0500) and stays in its position without a locking nut.

Application: Fast processing during machining with high rotation speeds through high-pressure cooling up to 70 bar.

Fig. shows item in a different colour.
