

ANSELL Chemical-resistant gloves CHEMTEK™ 38-520

Excellent glove providing the best resistance to the most aggressive chemicals, without compromising on dexterity or comfort.

AlphaTec® 38-520 offers superior protection against aldehydes, ketones and esters as well as concentrated mineral acids

The glove is very flexible and provides excellent dexterity

Designed for comfort, with a natural, curved ergonomic shape and soft feel, offering easy donning and good grip

The absence of latex proteins means there's no risk of latex allergies

Rough finish on the hand section of the glove for safer handling
