

ECON® ESD operator Type: 1215 Suitable for type: Angle pattern storm valve

Hydraulical /pneumatical SOS operator type: 1215 for angle type storm valve

Characteristics

Type: 1215

Suitable for type: Angle pattern storm valve

Application

- For mounting on angle pattern storm valves type 1205 or type 1207.
- Makes it possible to close the storm valve quickly (in an emergency) by an hydraulic or pneumatic signal.
- The model shown is for storm valves that have been delivered since late 2020 / early 2021. For accessories on storm valves delivered before this period: please contact ERIKS.

Technical Information

- After the operator has been triggered by the hydraulic or pneumatic signal and the storm valve has been closed, it must be opened manually again.

Options

- To be supplied together with components for hydraulic or pneumatic control.

Execution	Suitable for size	Material	Article
Pneumatic/hydraulic emergency shutdown operation	DN50 - DN65	Steel plate ST 37	14075774
Pneumatic/hydraulic emergency shutdown operation	DN80 - DN100	Steel plate ST 37	14082112
Pneumatic/hydraulic emergency shutdown operation	DN125 - DN150	Steel plate ST 37	14190706
