

TRACTEL Harness, HT 55 Standard buckles

The HT55 harness is designed for a wide range of applications. It is particularly suitable for construction workers (ladders, scaffolding, roofing work, etc.) thanks to the anchor point on the chest.

Improved comfort is ensured by the X-Pad back pad, horizontal leg straps in combination with the 2-part harness design that offers greater flexibility in the movement of the harness.

The harness is very easy to put on, as it opens completely at the front while maintaining the shape of the harness through the X-Pad.

Universal and very comfortable harness for long-term use

Complies with the EN 361 standard

1 back point with large D-ring to eliminate the risk of detachment of the carabiner

1 chest point

Comfortable pelvic belt

5 adjustment points

Very comfortable and horizontal leg straps

With standard buckle

Comfortable X-pad on the back

Fall indicator on each anchor point

Label holder
