

Protecting stop LDPE

Protecting stop of LDPE (polyethylene). For the protection of internal thread and boreholes against pollution and damage. This protection stop is supplied with an open ring as dismantling aid and is very suitable for a fast removal of the stop. Ordering advice: pay attention to the fact that the shaft diameter D is about 0,2-0,8mm (depending of the nominal size) bigger than the bore- or internal threadhole that needs to be protected. Colour: natural.
