

# **GOETZE Pressure reducing valve Type 1003 series 9000** bronze external thread (EN) DIN PN25

Type 1003 Series 9000 is a lead-free bronze pressure reducing valve for protection of water supply systems against excess supply pressure and when a constant supply pressure in the system is required.

### **Characteristics**

Series: 9000mFO **Type:** 1003

Model: Direct-acting

Connection: External thread

Standard connection: DIN EN 10226 Maximum inlet pressure: 25 bar

PMO - maximum operating pressure: 25 bar TMO - maximum operating temperature: 85 °C

Medium temperature: 0 / 85 °C Housing material: Bronze Material quality: CuSn4Zn2PS O-ring material: EPDM

Material spring bonnet: PA, glass-fiber reinforced Filter element material: Stainless steel 316 (1.4401)

Mesh width: 160 µm

Filter holder: Stainless steel 316 (1.4401)

Flow direction: through arrow marking on housing

With couplers: Yes

Approvals: ACS, DIN DVGW, PIB, SVGW, WRAS

#### **Application**

- Drinking water supply systems
- Cattle agriculture.
- Irrigation technology.
- Process water supply in industrial and building technology.
- Machinery & equipment connected to the drinking water network.

#### Medium:

• Drinking water up to 85 °C.

## Size table:
