

BRADY Extra secure Spin Lockout for use with cable

Effectively lock out many types of difficult-to-secure isolation points, including valves, handles and oversized devices, with this versatile cable lockout solution.

Can be stored with the machine or at the point of need without cluttering space thanks to its small footprint
Extremely adaptable functionality means this one device can take the place of multiple application-specific devices, saving time and storage space
Three colours available to help differentiate isolation points, energy or equipment in your facility
