

REMKO Dehumidifier, type ETF 360/ETF 460

Mobile humidifier ETF 360/ETF 460

- **Very low operating costs**

Full automatically controlled dehumidifier with integrated condensate pump with ready-to-plug condensate connection. Particularly efficient due to use of a rotary compressor. 2 optional fan levels and digital temperature and humidity display. Moisture is controlled by an integrated hygrostat. The fully automatic control guarantees fault-free permanent use round the clock. With integrated handle and transport rollers for easy movement of units.

- **Application areas**

Living spaces, cellars, lofts, garages, laundry rooms, wash rooms and changing rooms etc.

* Integrated condensate pump in Low-TEMP version [6–32 °C].
