

KEMPER Globe valve Series: 135 01 Type: 24001 Bronze KIWA Flange PN16

Characteristics

Series: 135 01

Type: 24001

Construction type: Free-flow

Housing material: Bronze

Connection: Flange

With back-flow preventer: No

KIWA: Yes

Application

- Heating and cooling systems
- Industrial applications.
- Installation technology
- Recommended in: Utilities

Technical Information

- The metal parts that come into contact with the medium are made of dezincification-resistant, non-corroding bronze and are resistant to aggressive water.
- Maintenance-free spindle seal with self-lubricating EPDM lip seal, interchangeable under pressure in accordance with DN80
- EPDM seat
- Rotatable cone, protected against pressure impulses
- Without connection option for drain
- Spindle wire outside the medium
- With black handwheel
- No dead space

Approval

- DVGW [up to DN80], WRAS, KIWA [up to DN100] and VA certificates
- Plastic parts with KTW and W270 certificates
