

## Silicon hose APSH, Platinum cured silicone discharge hose, cleanroom Class 6; according to USP VI, FDA, ISO, European Pharmacopoeia and 3A Standards

### Application

- suitable for pharmaceutical and biomedical applications
- resists extreme temperatures, chemical attack, ozone, radiation, moisture, and environmental exposure
- is not intended for implantation
- Recommended in: Food & Beverages

### Technical Information

#### Temperature range

- -73 °C to +204 °C

### Construction

#### Material

- Platinum cured silicone
- tasteless and odorless
- translucent
- extremely flexible
- sterilizable/autoclavable
- hardness: 65° Shore A

#### Reinforcement

- polyester

### Approval

#### Approvals/regulations

- USP VI
- FDA 21 CFR 177.2600
- ISO 10993
- European Pharmacopoeia 3.1.9
- 3A Standards

### Options

#### Additional information

- documented lot traceable with identification on bags and boxes
- documented quality control
- sealed in PE-bag to ensure cleanliness
- custom lengths, sizes, special cleaning and/or packaging available
- hose with red marking no longer available

#### Options

- produced and sealed in cleanroom Class 6
- different color fabrics available for identification
- complete validation package available on request
