

DEB STOKO Skin protection for specialist application Travabon Special PURE

Skin protection when working with resins and waterinsoluble workplace substances. DESCRIPTION Travabon® Special PURE is a special, non-oily, skin protectant containing pigments which features outstanding protective action against water-insoluble workplace substances.

Characteristics

Series: Travabon® Special PURE

Application

- When working with water-insoluble workplace substances as well as mineral oils and greases, metalworking oils not mixed with water (e.g. cutting oils). Facilitates skin cleansing when working with multiplecomponent resins (epoxy and polyester resins etc.). Travabon® Special PURE can also be used on the face. NB: Using skin care products does not release you from the duty to take the prescribed protective measures.

Technical Information

- Whitish, unperfumed and silicone-free, non-greasy cream of oil-in-water (O/W) emulsion type.

Operating Principle

- Wash and dry the skin thoroughly before each application. Then carefully rub Travabon® Special PURE on to the areas of skin at risk, including between the fingers and on the fingernails. Travabon® Special PURE can also suitable for facial application. Travabon® Special PURE should always be used before starting work, after washing hands, contact with water and after any lengthy breaks.
