

SKF Housing kit SNL and SE

Housing Kit containing a high-quality SKF Explorer bearing, housing and all of the components needed to create a high performing bearing system.

Spherical roller bearing

Explorer spherical roller bearing with cylindrical or tapered bore.

Plummer block housing

SE or SNL plummer block housing depending on size.

Housing seals

The kit contains a complete set of housing seals and an end cover in case the housing should be placed at the end of the shaft.

Kits are available with either four-lip seals (TL) or V-ring seals (TA).

Adapter sleeve

For kits including bearings with tapered bore, an adapter sleeve complete with a lock nut and lock washer is included.
