

STRAUB Pipe coupling Series: Open-Flex2 Type: 5534 Repair coupling Stainless steel/EPDM

Repair couplings for all pipe materials. Can also be used as a non-tensile pipe coupling. Depending on the opening, the couplings support a bending angle of 2° to 5° and axial movement of 10 mm. When installing, the locking screws must be tightened to the correct torque. The torque is specified on the coupling.

Field of application

- Water distribution
- Gas pipelines
- Cooling water

Features

- Repair coupling
- Suitable for both plastic and metal pipes
- Hinged pipe coupling
- Available in all pipe diameters between 180 and 2032 mm

Characteristics

Series: Open-Flex2

Type: 5534

Shape: Repair coupling

Housing material: Stainless steel

Material quality: 1.4571

Sleeve material: EPDM

Material bolts: Steel

Suitable for pipe material: Metal/plastic

Suitable for plastic to metal: No
