

3M Aluminium adhesive tape 425

Details

- Resistant to chemicals to protect surfaces during de-paint process and other chemical masking operations
- Heat and light reflective tape protects surfaces and enhances lighting efficiency
- Improves heating and cooling efficiency to protect temperature sensitive materials
- Thermally conductive tape reflects and dissipates radiant heat
- Due to its low moisture vapour transmission rate, this tape offers excellent sealing and patching performance
- Withstands exposure to flame, weathering, moisture and UV for a strong, long-lasting and reliable bond
- Clean removal after harsh masking applications
- Conforms to curved and uneven surfaces
- Wide temperature use range from -53 °C to 148 °C

Characteristics

Series: 425

Type: 425

Material: Aluminiumfoil
