

FORMAT Precision machine upright spirit level type 4735

Design: Made of special grey cast iron, with prismatic sole and precision ground measuring faces. The longitudinal and transverse bubbles are made of special glass and filled with ethyl ether. The longitudinal bubble is stored stress-free and can be easily adjusted to 0 position backlash-free without having to dismantle it using an adjusting screw. With insulation handles and dust cover. Supplied in a wooden box.

Application: For aligning horizontal shafts and surfaces.
Accuracy:
DIN 877 Class 1b
with highly sensitive longitudinal bubble level indicator 0.1 mm/m.
