

FORMAT Hole punch, without ball bearing type 7116

Design: Made of special tool steel. Activated via spanner or hydraulic tools. Supplied incl. die, stamp, pressure screw.

Application: For punching holes in various materials such as stainless steel, copper, brass, aluminium and sheet iron. Particularly suitable for working in hard-to-reach areas, such as switching cabinets, instruments panels, etc.

Note: Lubricate pressure screw and die before working. The predrilled hole must be ca. 1 mm larger than the pressure screw.
