

KNIPEX Crimping pliers for end sleeves type 97 52

Design: Made of special grade, chromium-vanadium electric steel, hardened and tempered in oil. Burnished head. For optimum crimping results thanks to the precision profiles and unlockable locking mechanism, crimping pressure is precisely set at the factory, reduces hand force required by up to 30 % due to optimum leverage transmission. Two-handed operation for the simple crimping of larger conductor cross-sections. Handles with plastic covers.

Application: For the pressing (trapezoid pressing) of ferrules in line with DIN 46228 (Parts 1 + 4), with plastic protective cover.
