

FORMAT SDS core cutter type 1271

Design: Stable bits/socket/cutter set with SDS-plus or hex drive shank and hardened steel body with M16 internal thread. The optimum round motion ensures clean holes and the low-wear carbide teeth ensure maximum stability. High quality slot soldering with long tool life, including in hard materials. Supplied incl. replaceable centre drill. Max. drilling depth 50 mm.

Application: For concrete, stone, masonry, brick, tile and light construction materials etc.

Note: Suitable mount shank and centre drill [order no. 1274].

Diameter mm	Cutting depth mm	Type of shaft	Article
68	50	SDS-plus	23410237
80	50	SDS-plus	23410239
