

SKF Puller protection blankets series TMMX

The SKF TMMX series are designed to offer additional user safety, while dismounting bearings or other components. After the puller has been positioned, the blanket is simply wrapped around the puller and application. The tough, transparent plastic allows the user to monitor the component and the puller during operation. Especially designed to fit SKF TMMX series pullers, they are also suitable for use in combination with many other pullers.

Characteristics

Series: TMMX

Technical Information

TMMX 210

- Maximum diameter: 210mm Blanket length: 750mm Blanket width: 420mm

TMMX 280

- Maximum diameter: 280mm Blanket length: 970mm Blanket width: 480mm

TMMX 350

- Maximum diameter: 350mm Blanket length: 1200mm Blanket width: 580mm
