

FORMAT Chucking reamer, HSS TiN type 1537

Design: HSS-E, DIN 208-B, with approx. 7° left spirals, short point and uneven tooth pitch. This achieves clean and exact drilling. With morse taper shank.

Application: For reaming through holes. Particularly suitable for steel materials such as general construction steels, machine steels, tempered steels, case-hardening steels, tool steels, high speed steels, casting iron, nodular graphite iron and malleable cast iron, and soft non-ferrous metals such as aluminium and brass.
