

RX P-10 1-layer Industrial paper on roll - cellulose - white

- 1 - ply paper

Produced from 100% cellulose.

Quality is soft and absorbent enough to take small amounts of water or oil .

Given the sqm price this paper range ideally suited for single use.

Usually this material is used for drying hands in washrooms.

1-layer cellulose paper differs from one - ply recycled paper including in absorption and wet strength.

This is due to the length of the paper fiber, the longer the fiber is , the stronger the paper.

After absorption of water or by oil- cellulose paper , the paper is not mushy and it remains to absorb all of the water or oil is contained.

This results in a greatly reduced consumption compared to recycled paper.

Available in three versions :[ul2] RX - P -10 mini or cellulose paper dispenser

- RX - P -10 midi or cellulose paper dispenser
- RX P - 10 FS - Industrial cellulose paper .

Characteristics

Series: P-10
