

BESSEY OMEGA solid steel gluing clamp type 5102

Design: Slide rail and fixed bracket manufactured from one piece of structurally optimised, cold-drawn profile steel. The patented OMEGA bracket provides the maximum elasticity and security. Even with heavy vibrations, the clamping force is sustained for longer. Mobile bracket made of forged and galvanised zinc-plated heat-treatable steel. The smooth-running spindle with rolled, cold-twisted and burnished trapezoidal thread. The mobile pressure plate [Order No. 5104] can be replaced in line with the respective application without tools. With ergonomic 2-component plastic handle.

Application: Flexible clamping for the sensitive and very precise holding of items. The OMEGA bracket ensures a very precise clamping pressure. For high clamping forces with low tool weight. Clamping force up to 5 kN.

Chuckling range	Jaw length	Article
mm	mm	
80	80	23288082
100	100	23288083
250	120	23288084
300	140	23288085
400	120	23288086
