

FORMAT Solid steel bench fitter's clamp type 5103

Design: Slide rail, fixed bracket and pressure plate made from one piece of structurally optimised, cold-drawn profile steel; mobile bracket made of forged and galvanised zinc-plated heat-treatable steel; smooth-running spindle with rolled, strain-hardened and burnished trapezoid thread; mobile special pressure plate, can be pivoted up to 35°. With pushed-through T-handle.

Application: Especially for clamping forces up to 12 kN. As such, it can be used for all metal processing and in steel construction, as well as in woodworking.
