

BRADY Lockout padlocks nylon with aluminium shackle 38.10mm

Nylon body/aluminium shackle. Compact Safety Padlocks are a lightweight range of padlocks suitable for energy isolation programs. Unique cylinder is insulated to protect workers from shocks when key is inserted and is 5-pin precision-machined for more unique key cuts and better tamper resistance. Reserved, paracentric keyway provides optimal security and the special design prohibits the key from being released until the padlock shackle is closed. Locks are compact and lightweight and resist impact, temperature, chemicals and corrosion. Their non-conductive, non-sparking body features a ribbed design for easier gripping and handling. 1 key supplied with each lock. Key retaining (Key won't release until the padlock shackle is securely closed). Custom keying and charting is available. 6pcs per box, keyed to differ.

Colour	Lock width mm	Shackle diameter mm	Shackle width mm	Shackle height mm	Material	Article
