

IDEAL Hose clamp type 9423 galvanized steel

Design: DIN 3017. Material W1, band, housing and screw made of bright-galvanised steel. With embossed inside of band, rounded edges and strong steel strip for safe guidance of the screw and the belt for transmitting higher forces. Therefore at limited idle moments the same high tensile moments can be realised. Tightening takes place via a slotted hex bolt wrench size 7 mm, with integrated Phillips.

Application: Suitable for cooling water connections, non-pressurised and pressurised fuel pipes and vents, oil lines, lines in the household appliance industry, hose connections in the commercial vehicle industry as well as connections of pipes in plumbing and mechanical engineering.
