Small roller conveyors with support rollers made of steel tube

Small roller guide with steel rolls, 1 m straight

For transporting smaller objects on slopes

The conveyor materials should be placed on at least 3 carrier rollers. Galvanised framework made of U-profile (20/60/20 mm).

Note:

For roller guides with carrier rollers (Ø 20 mm), the rollers protrude 1.5 mm over the upper profile edge. The roller guides are supplied without feet connection/chain materials. Please inquire.

More accessories, double stands/tripod side guides and limit stops available on request.

With carrier rollers made of steel tube, galvanised Ø 20 x 1 mm wall thickness, with ball bearing inserts with plastic bases on both sides. Other lengths available upon request.
