

SKF EasyPull hydraulic puller set series TMM..H/SET

A set consisting of a hydraulically assisted SKF EasyPull together with a tri-section pulling plate, TMMS series, and a puller protection blanket facilitate an easy, safe and virtually damage-free dismantling. Especially suitable for dismantling spherical roller and CARB toroidal roller bearings, and other components such as pulleys and flywheels. A puller protection blanket, TMMX series, made of a strong transparent material allows the user to visually follow the dismantling procedure. While dismantling, the blanket helps to protect from flying fragments of bearings or other components, thereby enhancing user safety. A sturdy custom-made storage case with room for all parts minimises the risk of losing or damaging the set's components

Characteristics

Series: TMM..H /SET

Description	Article
EasyPull hydraulic puller set 100kN TMM..H/SET	23770613
EasyPull hydraulic puller set 75kN TMM..H/SET	12176733
Empty Storage Case TMM..H-1	13378560
