

Chamfer bit, 15°, 30°, 45°, 60° and 75° type 2999

Design: Sturdy chamfer cutter, guarantees smooth running and low-vibration stock removal thanks to highly positive cutting geometry, tool carrier nickel-plated.

For universal rough milling.

Supplied without indexable inserts, without screwdriver.

Application: For chamfering and edge-milling.

Note: Sturdy chamfer cutter for smooth running and low-vibration stock removal. This creates a good to excellent surface quality.

* Effective number of teeth for calculating feed.
