

SKF Pillow block housing Series: SNL 31

SNL plummer (pillow) block housings in the 30, 31 and 32 series are robust and suitable for tough operating conditions. Different housing variants and seal designs are available, making the use of tailored housings virtually unnecessary and enabling cost-effective bearing arrangements to be made.

The plummer block housings, often referred to as “large SNL plummer block housings”, are split housings. They have four holes cast into the base for attachment bolts.

Large SNL plummer block housings are primarily intended for spherical roller bearings and CARB toroidal roller bearings.

Large SNL plummer block housings as standard are made of grey cast iron EN-GJL-250. Where extra strength is needed, housing made of spheroidal graphite cast iron EN-GJS-400 can be supplied. These housings are identified by the designation prefix D, i.e. SNLD.

Characteristics

Series: SNL 31

Manufacturer ID	Outer dimension bearing	Length	Height	Width	Shaft height	Centre distance of mounting holes	Housing material	Article
	mm	mm	mm	mm	mm	mm		
SNL 3134	280	510	333	170	430	Cast iron		23769814
SNL 3136	300	530	353	180	450	Cast iron		23769815
SNL 3138	320	560	375	190	480	Cast iron		23769816
