

SKF Lock Nut Series: KMFE

KMFE lock nuts have one integral set screw, locking the nut in place. When the grub screw is tightened, it causes the nut thread to deform and press against the shaft or sleeve. Installation is quick as no further locking mechanism required, KMFE lock nuts are manufactured in steel.

Characteristics

Series: KMFE

Manufacturer ID	Thread size	Outer diameter mm	Width mm	Article
KMFE 4	M 20x1	32	9.5	12670845
KMFE 5	M 25x1.5	38	10.5	24003704
