

HUVEMA Milling/drilling machine HU 45 DM-4 - 400V

This versatile and complete mill/drill is great for all kinds of milling and drilling jobs in the small workshop. With a weight of around 360 kg and a sturdy column, this is the strongest, most affordable table-top gear drill where you get great value for your money! The wide and large 820 x 240 mm cross table gives you plenty of working space for your small and medium-sized projects.

The premium machine has a durable, cast-iron base as a solid base. Thanks to ball bearings, the machine has a very precise spindle run. The table and head run over wide, precise dovetail guides and come complete with power feed. The machine features a protective cover with spindle protection switch, executed according to latest CE directives for safe working.

This milling machine is suitable for milling, drilling, tapping, reaming and boring. The machine is ideal for the machinist who wants to upgrade from a smaller milling cutter. The machine is best known in the market for its versatility and high user satisfaction.
