

MOLYKOTE Longterm W2 grease

- White lubricating grease for metal/metal combinations with slow to fast movements and medium loads.
Good load-carrying capacity
- Suitable for long-term lubrication since it has no tendency to oxidize
- Wear protection through solid lubricants
- Good adhesion strength due to incorporated adhesion improver
- Good corrosion protection
- Prevents the formation of frictional corrosion.

Characteristics

Series: W2

Temperature range: -30 / 110 °C

Colour: White

Application

- Used successfully for bearings in machinery used in the food and pharmaceutical industries, in textile and paper making machines, domestic appliances and mechanical precision instruments.

Technical Information

Temperature Range:

- From -30 to +110°C, +130°C for short periods
